

WHITEPAPER

Introduction

Who is Croc Boy?

Welcome to Croc Boy, a project on the BSC Network. He was created by a group of experienced individuals who have years of experience in the crypto world. The team's aim is to turn Croc Boy into the biggest Meme project of 2022. Past experience has shown us just how powerful Dog meme projects such as Shib and Floki have become. Croc Boy will be launching on the 8th April 2022 with the mission to turn 2022 into the year of the Croc Meme.

Values

The Croc Boy team holds the following values dear to its heart and at the core they represent who we are:

Community –

Working collaboratively with the community is at the heart of our work. Because, when people come together, we can accomplish so much more than we ever could alone.

Integrity and Accountability

We deeply value the trust that the community has placed in us, and we work tirelessly to ensure that this trust will always be well founded

Transparency

At Croc Boy the team owners and developers always encourage open communication between the team and the community members. This transparent and open dialogue is one of the strongest of our pillars and works on trust within the community to go the distance.

Binance Smart Chain

Binance Smart Chain (BCS) was developed as a means of utilizing solidity-based smart contracts with much greater speeds and efficiency than other competing chains. With the decentralized exchanges on BCS, the lightening fast swaps and associated low fees have made it one of the most widely used blockchains for Decentralized Finance (Defi) using the BEP-20 protocol.

BSC Network has lost its former glory where projects would reach unimaginable levels of growth and success, unfortunately it's become a pump and dump ground. The Croc Boy project is here to change the trends.

Our Mission

The first step of our mission will be to turn our holder's, members and supporters into the most hyped community the crypto space has ever seen. The core team has some of the most extensive reach and in-dept knowledge of marketing and social media engagement in the industry. The access to celebrities, management teams and crypto influencers will separate this project from all others. The team has a detailed marketing plan and will be using all tools at their disposal to make this project the biggest success of 2022.

Croc Boy has an amazing future with numerous utilities under development. These will be detailed later in a more in-depth version but include things as NFT, SWAPPING and many more Celebrities /Influencer partnership.

The Croc Boy team has already begun its aggressive marketing push and will turn our community into a cult mentality driven power house ready to break all barriers towards success.

This team is absolutely committed to leading the way and proving to it's community that we will be the driving force that turns Croc Boy into the best Meme project of 2022.

IT'S THE YEAR OF THE CROC
